MY WIPE POLY POLYESTER WIPE

DESCRIPTION

Polyester 100% wipe constructed from continuous-filament with sealed borders and ultrasound. Ideal for very critical environments: abrasion-resistant and absorption capacity. The wipe is highly recommended for cleaning steel, process machine, delicate equipment and optical surfaces. Sterilizable in autoclave. Cleanroom washed and double bagged.

The product is available in the sterile version for irradiation (Gamma ray).

The sterile wipe comprises the sterilization indicator, product code, batch numbering is accompanied by a certificate of conformity and irradiation.
